# InAct 2020

A National level Humanitarian Hackathon

InAct was a 2-day intensive workshop involving interdisciplinary collaboration of students to contribute towards social innovation using technology for the humanitarian challenge proposed (https://inact.ssi.edu.in/#). After the screening, the final selected teams were assigned a respective domain expert for the challenge they were selected for.

The Pre events phase of InAct started on January 14, 2020 and continued till February 14, 2020. The mentors guided the teams towards a solution on the humanitarian challenges provided by THE Port and the domain experts. This month-long preparatory phase culminated into a 48 hours final hackathon to build working prototypes and tangible solutions.

The Inaugural ceremony of the main event was held at MCCIA, ICC Trade Tower on February 14, 2020. The Guest of honour was Mr. Prashant Girbane along with Nicolas Zanotti from THE Port. After this, the main hackathon started for 48 hours. During these 48 hours, all the thirty participants worked rigorously for building the final prototype. On February 15, a midterm review was held for each team with their mentors and Nicolas.

The final presentations and the Valedictory ceremony were conducted on February 16 at Ambedkar Hall. The presentations were assessed by Mr. Jagdish Chaudhary, Mr. Ajit Kanitkar, Mr. Pratap Sanap and Dr. Sharad Gore. The Valedictory Ceremony was graced by the presence of Dr. Anand Karve, Chancellor, SIU – Dr. S.B. Mujumdar and Vice Chancellor – Dr. Rajni Gupte. One of the teams working on the challenge "Blooming Forest" won the Hackathon and was rewarded by goodies from Symbiosis Statistical Institute along with scholarship for career training from Talerang, event educational partner.
