SYMBIOSIS STATISTICAL INSTITUTE

Virtual workshop on Natural Language Processing using Python Date: 26-27 Feb 2022

Background: Major focus of Symbiosis Statistical Institute is to train students to translate and apply statistical knowledge to solve real-world problems in various inter- disciplinary domains.

To explore various text analytics tasks such as text pre-processing and preparation, text categorization, clustering, association and predictive models etc, SSI is organizing virtual workshop on 'NATURAL LANGUAGE PROCESSING (NLP) USING PYTHON'.

Participants will get pathway for intelligent predictions, innovative actions and will be able to provide solutions using NLP.

Workshop will focus on data driven sessions to strengthen analytical skills by providing a blend of conceptual learning and to effectively analyze large amount of textual data in various domain like finance, health care, digital marketing etc.

Who should attend?: Students, Research scholars, Academicians and Professionals
