18/04/2023	3:50 pm to 4:40 pm	Case study of trademarks and copyright	Dr. Mausami
18/04/2023	4:40 pm to 4:45 pm	Vote of thanks	Training cell representative

A short note on the workshop:

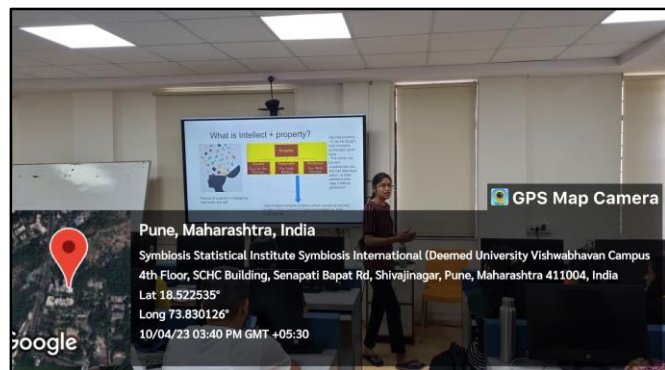

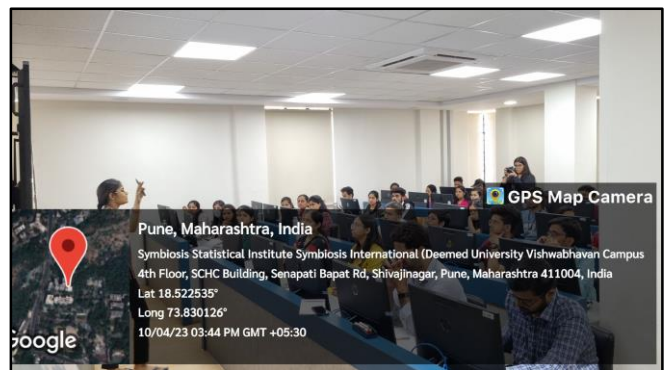

A series of workshop on Intellectual Property Rights (IPR) was organized by Training Cell 2022 for students of M.Sc. Applied Statistics, batch 2022-2024. The speaker of the workshop was Dr. Mausami Shrivastava. The workshop on IPR provided the students with an understanding of the importance of IPR in various fields and the legal framework surrounding it.

On the first day, Training Cell representative, Bhavya Walecha welcomed the speaker and gave a brief introduction about the speaker. The workshop began with an introduction to IPR, which is a set of legal rights granted to protect the original works of individuals or organizations. The history of IPR and its legislation were discussed. The students were introduced to the different types of IPR, including patents, trademarks, copyrights, and trade secrets. The workshop also covered traditional knowledge and its protection under IPR laws. The students were presented with several case studies related to IPR

The second session of the workshop focused on patents, the students were introduced to the different types of patents, including utility patents, design patents, and plant patents. A case study on the patent was presented to the participants. This case study helped them to understand the importance of patent protection for inventions.

The final session of the workshop covered trademarks and copyright, the students were introduced to the process of trademark registration, the criteria for trademark registration, and the rights and limitations of trademark holders. The workshop also covered the different types of copyright works and the process of copyright registration. The participants were presented with several case studies related to trademarks and copyrights. These case studies helped the students understand the practical application of trademark and copyright laws. Training Cell representative, Vaibhav Puranik gave a vote of thanks at the end of the workshop.
